Artificial Stone.—Artificial Limbs. 9

MARKS an EPOCH in the HISTORY of ARTIFICIAL LIMBS

MARKS' PATENTS from 1854 to 1895 cover all the accreted improvements in artificial legs and arms and make the Marks artificial limbs peerless. Rubber feet remove jar and make the stump-bearings easy. Rubber hands extend the limits of accommodations.

Light, Durable, Practical. Do not get out of order are inexpensive to wear. Appreciated by over thirty-six thousand wearers. Forty-six highest awards granted by Industrial Expositions.

Appointed by U. S. Government, railroad companies and other large corporations to furnish artificial limbs to pensioners and employees.

The limits of the utility of Marks' artificial limbs are unbounded. Persons wearing them engage in every occupation and profession.

A conductor on an Eastern railroad wears an artificial arm with rubber hand. He hoists tickets between his rubber finger and thumb while he punches them with his natural hand.

A farmer in the Southern States writes that he can pick as much cotton in a day as any one.

A sign-man in the employ of a large railroad wears one artificial leg, and attends to his duties in an accurate manner. Send for Manual of Artificial Limbs, containing 432 pages with 724 cuts. Instructions are given how to take measurements and obtain artificial limbs without leaving home.

WHAT WE DO.

We keep your gas pipes and burners in good order, attend to complaints, pump out the pipes, stop leaks and flickering lights, furnishing tips and burners free, and attach our Standard Automatic Gas Regulator to the pipes, which controls the pressure, allowing no waste or blowing, preventing the breakage of globes and mantles, and saving from 15 to 40 per cent. We charge a monthly rental for the regulator and service, according to the average consumption of gas.

Newark Evening News

Gets the bulk of display and classified advertising over any other newspaper in New Jersey, because it has the circulation, reaching nearly 70,000 homes every evening.

Shrewd advertisers also acknowledge that the Newark Evening News has the prestige and the necessary influence, and that it is the right sort of an afternoon newspaper in an evening newspaper state.

Its rates are made to conform to its circulation and usefulness.

The popularity of the Newark Evening News is made manifest by the fact that it prints regularly at least three times as much classified advertising as its nearest contemporary and more of that line of business than all the newspapers in Essex County combined.

New Jersey Freie Zeitung

NEW JERSEY'S OWN
GREAT GERMAN DAILY.

PUBLISHED EVERY MORNING.

(ESTABLISHED 1858.)

DAILY AND SUNDAY for fifty years, the "Freie Zeitung" has been an ever welcome morning visitor in the homes of the thousands of well-to-do German-Americans throughout this city and county

As a first-class family newspaper, with a capable staff, and the Associated Press telegraph and cable service, it has a powerful influence, its editorials and news matter being widely quoted and copied by other newspapers.

As an advertising medium, the high quality of its circulation, and the fact of its having an exclusive field, produces excellent results for stores, real estate agents, banks, and every good, honest proposition, as its perpetually well filled advertising columns plainly testify

Newark is a German-American city, and any advertiser who attempts to cover it without using the German-American newspaper deliberately cuts himself off from the business of a very large proportion of the population

Typewriters.

Simplicity

in a typewriter secures durability, ease and efficiency of operation, and increases the speed and accuracy of the work: the

UNDERWOOD

STANDARD

Typewriter

**is a
Marvel
of
Simplicity**

Yet every part is carefully chosen as the best possible means to the perfect finished product.

There is nothing hidden about the Underwood. The type bars lying when at rest in a compact segment; the patented guide—all the parts which permit the visible writing—which help, not bother, the operator will be shown you, explained also if you like; but really you'll see for yourself why the Underwood *does* endure and why its operation is so easy, quick and accurate.

UNDERWOOD TYPEWRITER COMPANY, Inc.

Quiet Tabulating.

There's one good thing about the Underwood you'll be glad to know if you have tabular work to be transcribed in typewriting—its tabulating attachment moves the carriage to the right point quickly and without jar—without startling the clerks and making the whole office jump. Then the visible writing of the

UNDERWOOD

STANDARD

Typewriter

gives immediate assurance of correct work. In making out bills, statements, comparative records, the tabulating device assures correct alignment in decimal columns unit under unit, tens under tens, and so on.

The purpose of the tabulating device, the visible writing and other valuable features of the Underwood is to save time, trouble and money in your office and promote efficiency. You ought then to be glad to know all about them. Suppose you call in. Our man will help—not bother you.
